# Chapter 1

## Introduction

## Chapter 2

### Project description

## Chapter 3

### Project motivation

# Chapter 4

## Team organization

### 4.1 Meetings

At the beginning of the project we first of all thought it would be very usefull to have a fixed day in the week to have a meeting about our project.

In our weekly meetings we discussed how to do and implement certain tasks in the project. So always at the end of our meetings we came to a task distrubiution and defined who is responsible for which task.

### 4.2 Task distribution

Johannes Jobst was responsible for everything concerning the Graphical User Interface. He also implemented the most parts of ERROR handling. For example the check whether the given input by the user was correct. But also checks that appointments could not be made in the past.
